

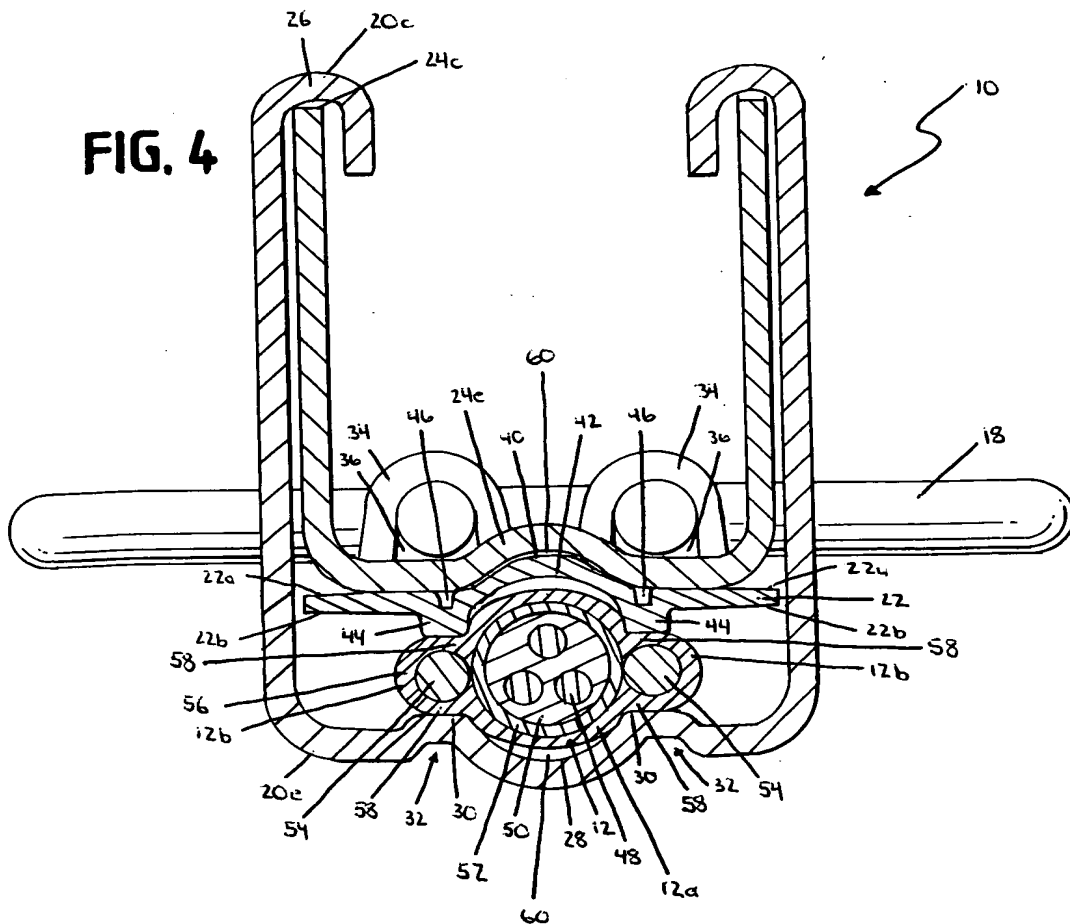

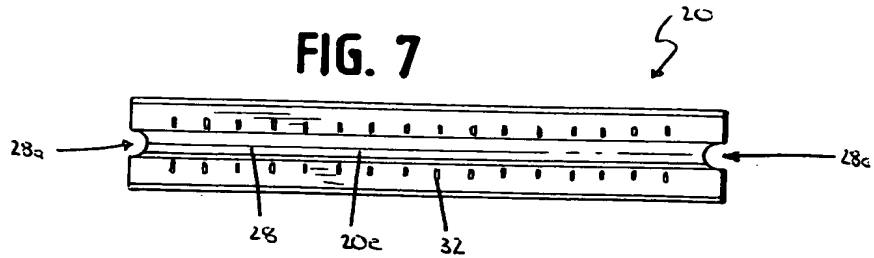

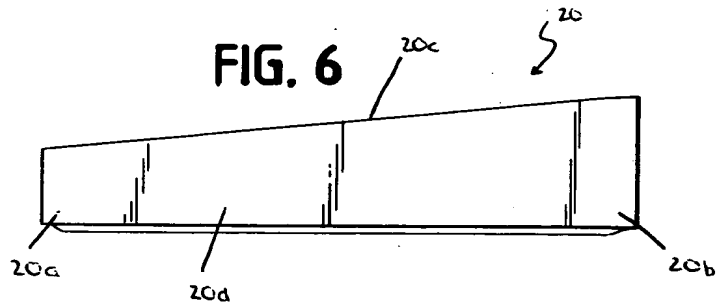

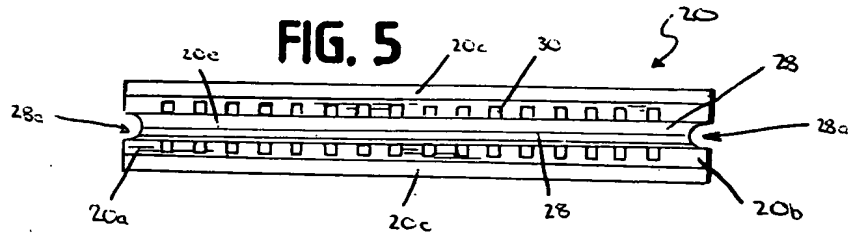

FIG. 2 is a perspective view of a mechanical assembly. It features a main elongated component (12) with a series of longitudinal slots (20a, 20b, 20c, 20d, 20e) and a series of transverse slots (22a, 22b, 22c, 22d, 22e). A series of small, rectangular components (24a, 24b, 24c, 24d, 24e) are positioned along the top surface of the main component. A series of small, rectangular components (26a, 26b, 26c, 26d, 26e) are positioned along the bottom surface of the main component. A series of small, rectangular components (28a, 28b, 28c, 28d, 28e) are positioned along the side surface of the main component. A series of small, rectangular components (30a, 30b, 30c, 30d, 30e) are positioned along the top surface of the main component. A series of small, rectangular components (32a, 32b, 32c, 32d, 32e) are positioned along the bottom surface of the main component. A series of small, rectangular components (34a, 34b, 34c, 34d, 34e) are positioned along the side surface of the main component. A series of small, rectangular components (36a, 36b, 36c, 36d, 36e) are positioned along the top surface of the main component. A series of small, rectangular components (38a, 38b, 38c, 38d, 38e) are positioned along the bottom surface of the main component. A series of small, rectangular components (40a, 40b, 40c, 40d, 40e) are positioned along the side surface of the main component. A series of small, rectangular components (42a, 42b, 42c, 42d, 42e) are positioned along the top surface of the main component. A series of small, rectangular components (44a, 44b, 44c, 44d, 44e) are positioned along the bottom surface of the main component. A series of small, rectangular components (46a, 46b, 46c, 46d, 46e) are positioned along the side surface of the main component. A series of small, rectangular components (48a, 48b, 48c, 48d, 48e) are positioned along the top surface of the main component. A series of small, rectangular components (50a, 50b, 50c, 50d, 50e) are positioned along the bottom surface of the main component. A series of small, rectangular components (52a, 52b, 52c, 52d, 52e) are positioned along the side surface of the main component. A series of small, rectangular components (54a, 54b, 54c, 54d, 54e) are positioned along the top surface of the main component. A series of small, rectangular components (56a, 56b, 56c, 56d, 56e) are positioned along the bottom surface of the main component. A series of small, rectangular components (58a, 58b, 58c, 58d, 58e) are positioned along the side surface of the main component. A series of small, rectangular components (60a, 60b, 60c, 60d, 60e) are positioned along the top surface of the main component. A series of small, rectangular components (62a, 62b, 62c, 62d, 62e) are positioned along the bottom surface of the main component. A series of small, rectangular components (64a, 64b, 64c, 64d, 64e) are positioned along the side surface of the main component. A series of small, rectangular components (66a, 66b, 66c, 66d, 66e) are positioned along the top surface of the main component. A series of small, rectangular components (68a, 68b, 68c, 68d, 68e) are positioned along the bottom surface of the main component. A series of small, rectangular components (70a, 70b, 70c, 70d, 70e) are positioned along the side surface of the main component. A series of small, rectangular components (72a, 72b, 72c, 72d, 72e) are positioned along the top surface of the main component. A series of small, rectangular components (74a, 74b, 74c, 74d, 74e) are positioned along the bottom surface of the main component. A series of small, rectangular components (76a, 76b, 76c, 76d, 76e) are positioned along the side surface of the main component. A series of small, rectangular components (78a, 78b, 78c, 78d, 78e) are positioned along the top surface of the main component. A series of small, rectangular components (80a, 80b, 80c, 80d, 80e) are positioned along the bottom surface of the main component. A series of small, rectangular components (82a, 82b, 82c, 82d, 82e) are positioned along the side surface of the main component. A series of small, rectangular components (84a, 84b, 84c, 84d, 84e) are positioned along the top surface of the main component. A series of small, rectangular components (86a, 86b, 86c, 86d, 86e) are positioned along the bottom surface of the main component. A series of small, rectangular components (88a, 88b, 88c, 88d, 88e) are positioned along the side surface of the main component. A series of small, rectangular components (90a, 90b, 90c, 90d, 90e) are positioned along the top surface of the main component. A series of small, rectangular components (92a, 92b, 92c, 92d, 92e) are positioned along the bottom surface of the main component. A series of small, rectangular components (94a, 94b, 94c, 94d, 94e) are positioned along the side surface of the main component. A series of small, rectangular components (96a, 96b, 96c, 96d, 96e) are positioned along the top surface of the main component. A series of small, rectangular components (98a, 98b, 98c, 98d, 98e) are positioned along the bottom surface of the main component. A series of small, rectangular components (100a, 100b, 100c, 100d, 100e) are positioned along the side surface of the main component.
